

GPP 451 : Health and Environment Policy: A Global Perspective

This course will explore how health and environment problems are controlled within Saudi Arabia and abroad. We will examine the policies and practices of environment and health and look upon various government programs that are established, organized, and operated to prevent or control hazards in the community, and the legal and regulatory framework behind them. This course will also provide an overview of the development, structure, function, and implementation of health and environment policy at local, national, and global scales. Case-examples will provide an in-depth understanding of health and environment policy. This course will shed enough light on the health policy, i.e., the various ways in which the government plays a role in health and in the provision of health care and it will look upon the policies that relate to the environment.
