

## RAD 245 : Radiology

In this course, students are required to become aware of and understand the nature of all currently available imaging procedures. Acquire a basic understanding of what each imaging procedure can and cannot accomplish and how to use these procedures in the evaluation of the clinical problem. Gain a firm knowledge of the indications, contradictions, risks and costs of commonly used imaging procedures. Learn the preparation and post procedural routines for imaging examinations. Learn to recognize basic anatomic structures as they appear on imaging studies in the normal patient and in common disease states.
