

# ENG 224 : English for Medical Students

Is concerned with developing fluency and confidence in using English in medical contexts. It increases EFL medical students' familiarity with medical written language and discourse in different medical contexts. The focus is on carrying out specialized activities in English, but attention is given to reading comprehension skills (expanding the English general and medical vocabulary repertoire through extensive readings), academic and scientific writing skills, and technical medical terms as required.

**Credits** 2

**Prerequisites**
